

FISH PUPPET

You'll need: Crayons, scissors,
and glue

1. Color the fish puppet. (You don't need to color the gray areas. They will be folded inside the fish.)
2. Cut out the fish puppet on the solid black lines.
3. Fold back each horizontal dotted line beneath each gray rectangle. Unfold them.
4. Fold back each vertical line to form a rectangular box. Glue the tab and press to hold.
5. Push all of the gray strips through the inside of the fish.
6. Fold up each fin on the dotted lines.
7. Pull back on the top and bottom fin to make the fish talk.
