

# YELL-OH-COPTER

You'll need scissors,  
crayons, and a  
paperclip.

1. Decorate a yell-oh-copter rectangle.
2. Cut out the rectangle.
3. Cut the slit between the propellers.
4. Fold one propeller forward (toward the face) and one backward (away from the face).
5. Cut the slit below the hand on each side. Fold each side back on the dotted line.
6. Fold the bottom of the copter up on the dotted line.
7. Attach a paperclip to the bottom tab you just folded.
8. Toss the yell-oh-copter in the air, or drop it from a high area and watch it spin down to the ground.
