THE STATUE OF LIBERTY

The Statue of Liberty was a gift from France to the United States of America.
The statue was given to honor our 100 year birthday of independence from England.

THE STATUE OF LIBERTY welcomed immigrants to New York Harbor in 1886.

THE STATUE OF LIBERTY is 151 feet tall and weighs 225 tons.

THE STATUE OF LIBERTY was designed by French sculptor, Frederic Bartholdi.

THE STATUE OF LIBERTY is made of copper sheets riveted to an iron framework.

To make the Statue of Liberty:

1. Color the statue and the base.
2. Cut out the statue and the base. (Cut out the slot on the top of the base.)
3. Fold the base on the dotted lines. Glue or tape the tabs in place.
4. Place the statue in the slot on top of the base.
